

Policy Statement

At Rowad Modern Engineering, our mission is to deliver projects that create lasting value for our clients, partners, and communities, while protecting people & the planet. We are committed to uncompromised excellence through the following principles:

Clients & Stakeholders

- Place our clients at the heart of every project by delivering on time, within budget, and to the highest international standards.
- Maintain transparent communication and systematically measure satisfaction to build trust and long-term partnerships.

Safety & Health

- Adopt a “zero harm” philosophy: every incident is preventable.
- Identify hazards, assess risks, & implement controls to protect employees, subcontractors, partners, & communities.

Quality & Innovation

- Apply world-class quality management systems across all projects.
- Drive continuous improvement through benchmarking, lean construction, and innovative engineering solutions.

Technology & Digitalization

- Integrate advanced tools such as BIM, digital twins, modular construction, and AI-driven systems to enhance precision, efficiency, and sustainability.
- Promote a culture of data-driven decision-making and continuous digital transformation across all business units.
- Leverage technology to ensure transparency and optimize performance throughout the project lifecycle.

Environment & Sustainability

- Reduce our environmental footprint by adopting green building practices, energy efficiency, & resource optimization.
- Strive to exceed regulatory requirements and actively contribute to climate resilience and sustainable development.

People & Culture

- Empower employees with continuous training, modern methodologies, and opportunities for professional growth.
- Foster a workplace culture built on respect, diversity, inclusion, well-being, team spirit and collaboration.

Ethics & Governance

- Operate with integrity, accountability, and full compliance with laws, regulations, and ethical standards.
- Ensure strong governance across all operations, supported by transparent decision-making and responsible leadership.

Community Impact

- Support the communities in which we operate by promoting local integration, vocational training, and social initiatives.
- Contribute to long-term socio-economic development and knowledge transfer in every region.

Supply Chain & Partners

- Build long-term, trusted partnerships with vendors based on fairness, performance, and mutual growth.
- Require all partners to align with Rowad's standards for safety, quality, ethics, and sustainability.
- Support and develop local suppliers and subcontractors to strengthen economies and ensure knowledge transfer.
- Continuously assess and benchmark supplier performance to improve reliability and shared success.

Continuous Improvement

We actively encourage feedback from stakeholders and apply lessons learned to strengthen our systems, outcomes, and reputation.

Management's core objective is to ensure that Rowad Modern Engineering and its supply chain remain fully aligned with this Policy.
